SUMMARY

Dedicated and aspiring full stack developer with a passion for creating intuitive user interfaces and robust web applications. Proficient in HTML, CSS, and JavaScript, with a solid understanding of responsive design principles. Committed to delivering high-quality solutions through collaborative teamwork and innovative problem-solving.

WORK EXPERIENCE

Web Developer Intern , Luminar Technolab

Aug 2023 - Feb 2024

- Developed and maintained web applications, collaborating with cross-functional teams to enhance functionality and introduce innovative features.
- Implemented responsive web design principles for optimal user experience across devices.
- Wrote efficient and reusable code following best practices and coding standards.
- Troubleshoot and debugged issues to ensure smooth functionality and performance.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Aug 2019 - Jun 2023

APJ Abdul Kalam Technological University

- 7.37 CGPA

TECHNICAL SKILLS

- **Front-end:** HTML, CSS, Bootstrap, TailwindCSS, JavaScript, TypeScript, React.js, Angular
- **Back-end:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, MySQL
- **Version Control:** Git
- **Tools:** Canva, GitHub, Figma, Postman, Vs Code

PROJECTS

Student Management System

- Developed using React and Tailwind CSS for the frontend, with Node.js and Express for the backend and MongoDB for data storage.
- Implemented secure login, registration, and CRUD operations for managing student details.
- Created search and filter functionalities to enhance user experience and data accessibility.
- Developed a feature for downloading student details in PDF format, improving data management.
- Source code :-
 - Front-end : <https://github.com/mhd-ashmal38/sms-front.git>
 - Back-end : <https://github.com/mhd-ashmal38/sms-back.git>

E-Commerce Web Application

- Developed using Angular and Tailwind CSS for the frontend, with Node.js and Express for the backend and MongoDB for data storage.
- Created a modular architecture with Admin and User modules, enabling CRUD operations for product management.
- Implemented secure admin login using JWT for authentication.
- Added user functionalities for product browsing, wishlist creation, cart management, and advanced search and filter options.
